When you submit this form as your Annual Report, please include below a narrative of any significant changes that have occurred in your school during each of the past years. This becomes a cumulative record.

Year 1:

During the 2018-19 school year we added two full time teachers. One teacher is teaching a second homeroom of Kindergarten, the second teacher is serving as our 5-8 math teacher and resource room teacher. Our student population increased from 108 student to 125 students.

Year 2:

The last quarter (plus) of the 2019-20 school year was shifted dramatically due to the global COVID-19 epidemic. This has altered and shifted the time line for some of the action plan below. We started the year with a decline in numbers (113) but have since recovered to 115. We look forward to a bigger incoming Kindergarten class next fall and will continue our focus on individualized learning and Standards-Based grading and assessment.

Year 3:

Year 4:

Place cursor in appropriate box and populate with information. Then use tab key to move to next box, or from the last box to add a new row.

2B:07	There is not an active PTL Committee or Parent support group. An attempt was made to organize around our main community events, but improvements can be made.	2018-2019	2018-19	Administration	18-19: Family groups were created in August of 2018 and called "Faith Families." These small family groups were introduced to each other during our "Back to School BBQ" in September of 2018. These groups have been used as volunteer groupings for each of our
-------	---	-----------	---------	----------------	---

Use this form as a cumulative report to your District Accreditation Commission and submit by May 15 of each year. You do not need to re-do the form each year, but simply add to it so that information from previous years' reports also shows. Submit this form electronically to the district office no later than May 15.

The annual fee is payable to NLSA (national office) no later than October 1 of each year.

					<p>major events. It is an attempt to change the way that PTL groups have been organized in the past. There have been mixed results with this, but we are planning on attempting the same process next year with more diligent planning and a schedule with all events at the beginning of the year.</p> <p>In place of a leadership team of parents, we have utilized parent leadership on our marketing and gala planning committees. These leadership groups have had an impact on events that would have typically be run by a PTL leadership group.</p> <p>19-20: We continued to utilize small group parent groups but not very successfully. Our main change has been the formation of a Gala Committee which is comprised of parents. They have taken over that process completely and it looks to grow each year.</p>
2C:13	Continue to build and improve upon teacher's and administrator's efforts to work together and support each other helping to create a more seamless vertical alignment in all aspects of K-8	2018-2020	18-19	Administration and teachers	18-19: In August of 2018 FLS had a consultant lead three days of professional development in several areas key to this concern. First, we utilized "Strength Finders 2.0" assessment in determining

					<p>our teams strengths. This lead to great discussion and understanding of different abilities and traits of our co-workers and open eyes to many way of how to connect and work with each other.</p> <p>Next, utilizing our new software “Curriculum Trak” and training during professional development, we have put in place a plan to vertically align all curriculum over the span of the next two school years. Teachers are entering information by quarter after they complete a unit. This strategy has been working well and we continue to use part of our monthly professional development to assess progress and continue the process.</p> <p>19-20: Teachers have been meeting in small PLC groups every other week to work on alignment in smaller clusters. Utilizing our curriculum mapping software and our new standards based grading software we have been able to align our curriculum vertically.</p>
3A:04	FLS school board has begun a systematic organization and policy review procedure. This process is in motion and will continue to make sure	2019-2020	19-20	Administration and School Board	18-19: The school board and administration has set a monthly agenda

	the Governing Board is organized around written policy and operates within its function.				to review all policy and this will be a focal point of the 2019-2020 school year. 19-20: All policy has been reviewed. The financial policy was changed significantly and is updated to match our times. All policy will continue to be reviewed on a yearly basis, utilizing a year long calendar for consistent yearly review.
4:05	Volunteer roles and policy for utilizing volunteers throughout multiple areas of the school need to be reviewed and a complete policy needs to be in place.	2018-2019	18-19	Administration and Committee	18-19 Focus has shifted from volunteer roles to utilizing "Faith Family" groupings to assist with major events during the school year. We have also begun the process of implementing grandparent volunteers for reading time and library time. The policy has not been completed but has been added to the school board calendar of policy to address. 19-20: Volunteers have continued and Faith Family groups continue to evolve.
5:04	While the curriculum is aligned with LCMS teachings and provides many opportunities to proclaim the Gospel, the visiting team, through observation, review of documents, and interviews has found that alignment to standards has not been completed. Sequencing of skills and content	2021-2022		Administration and teachers	18-19: As stated above in 2C:13 This process has started with a systematic approach to documenting all curriculum utilizing "Curriculum Trak" software.

	<p>knowledge through grade levels has begun, but has not been finalized. The written curriculum documents do not yet reflect research-based best practices and strategies. The work on these curriculum documents has begun. The visiting team, through interviews, has established a commitment on the part of the principal to complete the work on a school-wide curriculum document. This commitment is reflected in the school's action plan.</p>				<p>This is step one to fulfilling our goal of creating a flexible and researched based curriculum that is utilizing the most up to date research on learning while implementing technology. We will continue this process and are on target to complete this by 2020-21.</p> <p>19-20: The work on this standard will be addressed in 20-21</p>
5:06	<p>Teachers need to be provided with more intentional time to communicate and collaborate with the focus on improving instruction and improving student learning.</p>	2018-2019	18-19	Administration and teachers	<p>18-19: Before this school year, teachers met weekly as a full staff. This year, we have shifted to meeting every other week as a full staff and as small group (PLCs) during the alternating week. Our PLCs are groups K-3 and 4-8. This has allowed more discussion and narrowed the focus for our teachers during their PLC meeting times. The calendar for the 2019-20 school year has been designed with intentional professional development days that will allow for off campus visits of high performing schools. This will continue our focus on improving instruction and student learning.</p>

					19-20: We broke our PLCs into smaller groups K-2, 3-4, 5-8. This switch helped with the current make up of grade levels and teaching staff.
5:07	There is a smart board in each classroom. Additionally, classrooms have access to tablets, chrome books, and laptops. The team did not observe teachers' full use of smart boards as interactive instructional tools. Teachers stated they have had some training in the use of smart boards. The use and function of technology in teaching and learning is included in the school's action plan.	2018-2019	18-19	Administration and teachers	<p>18-19: Smart board instruction was a focus of a professional development session in August of 2018. Individual instruction has been given to teachers throughout the year when needed. In addition one of our faculty members is attending Tec21 professional development and demonstrates/shares the newest learning she has received each month. This has widely impacted current practices throughout our school.</p> <p>19-20: We send a teacher to Tec21 for the second year and will continue to improve our technology. With the covid-19 pandemic, our teaching staff has become very affluent at the use of technology and finding new ways to connect with students that will be beneficial for years to come.</p>
5:08	While some curriculum improvements have already begun, FLS needs to regularly monitor and adjust	2020-2021		Administration and teachers	18-19: Mathematics curriculum has been updated for the current school year. We

	curriculum, instruction, and assessment and base those changes on a variety of assessments and focus investigation of current practices.				<p>have shifted from a formulaic math curriculum that stressed practice and routine to a more current curriculum that focuses on problem solving, logical reasoning, and higher order thinking. Reading and writing curriculum for grades K-2 has also been updated. Our new curriculum utilizes a focus on student reading and writing in context versus isolation and phonics. Students and teachers are seeing drastic improvements on student abilities and they have found the new curriculum to be more engaging for our students.</p> <p>We will continue to review all curriculum and implement changes when necessary.</p> <p>19-20: Two teachers piloted new Math curriculum in grades 4 and 2. We will make the switch to a new curriculum in 20-21 based on their suggestions.</p>
